22ND SUNDAY IN ORDINARY TIME

INCLUDED:

Soap Plastic Cup
Brain Eraser
Heart Eraser
Popsicle Stick

USE YOUR OWN:

Microwave Safe Measuring
Cup
Cooking Spray
Microwave

MARK 7:1-8,14-15,21-23

When the Pharisees with some scribes who had come from Jerusalem gathered around Jesus, they observed that some of his disciples ate their meals with unclean, that is, unwashed, hands. —For the Pharisees and, in fact, all Jews, do not eat without carefully washing their hands, keeping the tradition of the elders. And on coming from the marketplace they do not eat without purifying themselves. And there are many other things that they have traditionally observed, the purification of cups and jugs and kettles and beds. — So the Pharisees and scribes questioned him, “Why do your disciples not follow the tradition of the elders but instead eat a meal with unclean hands?” He responded, “Well did Isaiah prophesy about you hypocrites, as it is written: This people honors me with their lips, but their hearts are far from me; in vain do they worship me, teaching as doctrines human precepts. You disregard God’s commandment but cling to human tradition.”

He summoned the crowd again and said to them, “Hear me, all of you, and understand. Nothing that enters one from outside can defile that person; but the things that come out from within are what defile.

“From within people, from their hearts, come evil thoughts, unchastity, theft, murder, adultery, greed, malice, deceit, licentiousness, envy, blasphemy, arrogance, folly. All these evils come from within and they defile.”

More resources at

THE MASS BOX

1. Spray the cup's inside with cooking spray.

2. Put about one quarter of your soap square in a microwave safe measuring cup. Ask an adult to microwave it for 10 seconds. Stir it with the popsicle stick, and keep heating it in 5 second intervals until it is all melted. The melted soap is HOT. Ask an ADULT to fill the plastic cup half full of the melted soap.

3. Cool the soap for about 20 minutes - a freezer can help speed the process.

4. Place the heart and brain erasers into the soap.

5. Melt the rest of the soap in the microwave safe bowl and pour the remaining soap into the mold. Let the soap cool for at least 2 hours.

Once it is hardened, turn the mold over and pop out your new soap!

PARENT NOTE: The soap is a vegetable and glycerin based soap for hand and body washing - you can see the full ingredients at candlewic.com. Wash the container you used to melt the soap by hand, not in a dishwasher.
